Show It!

- Take three small pieces of paper (2 cm X 2 cm). Write a letter on each piece of paper. You can write any letters, but don't write "x" or "z."
 - Your teacher will put you into groups of 4 or 5 students per group. Put all of your letters together.
 - As a group, spell as many words as you can. Which group makes the most words? Which group makes the longest word?
 - Give half of your letters to another group. Take new letters from that group. Play again!
- 
- A pile of small white paper squares, each with a single letter printed on it. The letters are scattered and overlapping, with some visible letters including S, N, D, U, C, E, A, G, P, R, O, I, S, B, and V.
